

Mindy Hoover

USER EXPERIENCE RESEARCHER • PHD CANDIDATE

EXPERIENCE

Teleportation | ISU + NSF | Lead Researcher

MAY 2020 - PRESENT

Designed and implemented two online experiments to research spatial updating in virtual reality.

Accelerated data collection by integrating adaptive feedback into a virtual reality application to facilitate remote, unsupervised data collection online.

SCOTTIE | ISU + Raytheon | Researcher

MAY 2021 - AUGUST 2021

Managed a team of 8 research assistants to gather longitudinal data on collaboration in virtual reality versus teleconferencing from over 100 participants.

Developed protocols to streamline study procedures and data collection over Zoom and reported results to customer stakeholders.

Factory of the Future | ISU + Boeing | Lead Researcher

MAY 2015 - MAY 2018

Identified gaps in the existing literature to create a multi-study research plan in partnership with the customers at Boeing.

Tested usability, speed, and accuracy of augmented reality interfaces for factory assembly applications. Conducted comparative user testing of augmented reality hardware for displaying aircraft assembly instructions.

Google | UX Research Intern

MAY 2018 - AUG 2018

Designed and facilitated 8-day diary study (n=50) to capture user perceptions of good ads. Coded and analyzed themes in the resulting qualitative data.

Conducted in-person user studies on new ad formats to evaluate usability and satisfaction. Translated results into actionable recommendations for engineers, project managers, and stakeholders.

Applied card sorting and participatory design methods to inform information architecture of online ad formats for critical verticals.

EDUCATION

Doctor of Philosophy Human Computer Interaction

IOWA STATE UNIVERSITY • DEC. 2021

Dissertation Title: Adaptive XR Training Systems Design, Implementation, and Evaluation

GPA: 3.97/4.00

Master of Science Human Computer Interaction + Mechanical Engineering

IOWA STATE UNIVERSITY • MAY 2018

Minor: Industrial Engineering

Thesis Title: An Evaluation of the Microsoft HoloLens for a Manufacturing Guided-Assembly Task 

GPA: 3.96/4.00

Bachelor of Science Mechanical Engineering

IOWA STATE UNIVERSITY • MAY 2016

Minor: French

GPA: 3.86/4.00

Boeing | Human Factors Intern

MAY 2016 - AUG 2016

Designed experimental tasks to evaluate ergonomic stability of pilots using new 777X touch screen displays during turbulence.

Interviewed and surveyed commercial and military pilots to identify opportunities for new aircraft navigation features.

PROFESSIONAL DEVELOPMENT

I/ITSEC Conference | Subcommittee Member

JAN. 2019 - PRESENT

Reviewed and selected papers for conference publication in the Policy, Standards, Management & Acquisitions subcommittee.

Created schedule of 2021 conference events for the PSMA subcommittee.

CHI Conference | Workshop Co-Organizer

DEC. 2020 - MAY 2021

Planned events and facilitated discussion at the first Computer-Human Interaction Conference workshop on remote XR research.

Reviewed workshop paper submissions from industry experts.

HCI Student Group | Vice President + Event Organizer

SEP. 2017 - MAR. 2021

Organized annual Usabilathon at Iowa State University to help students practice their UX problem solving skills and network with UX industry professionals.

ISU Graduate Student Senate | HCI Senator

SEP. 2016 - MAY 2017

Voiced concerns of HCI graduate students to a forum of student governors and voted on university legislation.
